

BIOBASICS NSW

**MAY 2-3 2025
BREAKFREE AANUKA BEACH RESORT
COFFS HARBOUR NSW**

BioBasics offers a transitional methodology for the Biodynamic approach to Osteopathy in the Cranial Field, as we explore these principles together in both the lecture and practical session formats. The course is designed with a gentle tempo that allows ample time for rest and recreation. We are gratified to have this opportunity to welcome you to become part of an Osteopathic community that is devoted to keeping Traditional Osteopathy alive through exploration, devotion and service. This course provides a unique opportunity for mentoring with its teacher to participant ratio of 1:2. The biobasics team are oriented to the general practice of Osteopathy and are fully trained in Biodynamics

COURSE OUTLINE

An Historical perspective of osteopathy treating pain to ease

The perception of WHOLENESS-in both ease and dis-ease

Breath of life and end of life care

Respiration: A Pathway to Wholeness and Key Clinical Applications

Exploring Osteopathy and the Indigenous connection.

The clinical importance of the lymphatic system in response to trauma

Concussion an osteopathic approach
